

Acoustic Alchemy Photo Submissions

We love photos! But because we get so many photos from professionals and fans, the selection of what to display becomes harder and harder with each tour.

The more unique a photo is, the more we like it! We're looking for unique views and fun shots... something a little different than the average photo.

We have decided to display our fan submitted photos in a separate gallery from the pros. If you visit our website gallery page, you'll find some photos from the pros and fans from our most recent shows.

Please submit your photos to our mailbox and size your photos to 500 pixels in width and make sure your e-mail to info@acoustic-alchemy.net is under 6 MB in size.

If you're a pro, please send an e-mail to info@acoustic-alchemy.net and we'll give you the ability to transfer the files directly to us.

Here are some tips from our Webmistress:

1. We will always display your name and the place where the photo was taken.
2. For best results, your photos should be no bigger than 600 x 500 pixels.
3. Please do not submit more than 12 photos and try to stay within the e-mail guidelines, even if it means a couple of e-mails.
4. We can't personally edit photo submissions from everyone. So despite requests to crop, blend, center, remove red-eye, erase objects or other people, fix flash glare.... etc – we just can't accommodate the request. The best that we can do is to re-size the photo so that it will be displayed attractively.
5. If we have to sift thru dozens of photos - the chances are that a photo can be overlooked. So pick your best ones!
6. We don't want you to be disappointed if we don't display all of your photos, but we are looking for unique shots...things and perspectives which are different.

Alternative places to display the rest of your photos:

Join the Acoustic Alchemy Bulletin Board. There is a photo forum to upload and display photos - but the number and size of the photos per posting will be limited to 4 pics.

1. If you can display your photo on a website, you can also display the photo on the Acoustic Alchemy forum by using the URL of the photo in your post. Just click the image icon and paste the URL link into the pop up window.
2. If you have many photos to share, please consider using Flickr or Picasa - and then posting a link to your album.
3. You can share your MySpace or Facebook albums as well.

Thanks in advance for your understanding!

Kat
